

Locked Out of the Market Study in September 2022

The Gap between HAP Limits and Market Rents

Snapshot Study

September 2022

Simon Communities of Ireland

Supported by

Rialtas na hÉireann
Government of Ireland

Introduction

Locked Out of the Market is a snapshot study¹ undertaken every quarter over three consecutive days. This study was undertaken in September 2022 (19th, 20th, and 21st). This report tracks the number of properties advertised to rent within the Department of Housing, Planning and Local Government (DHPLG) Housing Assistance Payment (HAP) limits. Details were gathered from Daft.ie² for the following areas: Cork City Centre³, Cork City Suburbs, Dublin City Centre⁴, Dublin City North⁵, Dublin City South⁶, Galway City Centre⁷, Galway City suburbs, Limerick City Centre, Limerick City suburbs, Portlaoise, Kildare (selected areas)⁸, Athlone, Sligo Town⁹, Dundalk, Co. Leitrim¹⁰, and Waterford City Centre¹¹.

This is the twenty-seventh snapshot study of this kind and compares the findings to the previous studies providing indicative point-in-time data on the pressure in the private rental sector. It reflects the lived experience of people trying to find a home to rent in this period. This study also examined availability of properties within discretionary HAP limits in each of the 16 areas. This discretionary rate can be up to an additional 50% of the standard rate in Dublin, and up to an additional 35%¹² of the standard rate elsewhere. The four household categories examined are as follows:

- Single person
- Couple
- Couple/One Parent and One Child
- Couple/One Parent and Two Children

The study counts one-bedroom units for single people and couples, two-bedroom units for couples/one parent and one child, and two bedrooms or more for couples/one parent with two children. It should be noted that this represents a change in methodology from earlier iterations of this study, whereby one-bedroom units had been counted as viable options for the couples/one parent and one children category.

¹ This is a snapshot study conducted over a three-day period therefore findings are indicative of trends in asking prices in the wider rental market.

² Daft.ie is a property website that advertises the asking prices for properties available for sale and for rent. <http://www.daft.ie/about/>

³ Each city centre in daft is known as a "general area" and has a number of specific areas associated with it. Ads are placed in these specific areas. Cork City Centre contains properties to rent in Cork City Centre, Western Road and The Lough (daft.ie).

⁴ For this Report, Dublin City Centre was defined as Dublin 1 and Dublin 2.

⁵ For this Report, Dublin City North was defined as Dublin 3, 5, 7, 9, 11.

⁶ For this Report, Dublin City South was defined as 4, 6, 6w, 8, 10, 12, 14 and 16.

⁷ Galway City Centre contains properties to rent in Galway City Centre, Nun's Island, Bohermore and Woodquay (daft.ie).

⁸ Areas of North Kildare include Ballitore, Ballymore Eustace, Celbridge, Clane, Johnstown bridge, Kilcock, Kildare, Kill, Leixlip, Maynooth, Naas, Newbridge, Prosperous, Rathangan, Robertstown, Sallins, Straffan, and The Curragh.

⁹ Areas of Athlone, Portlaoise, Dundalk and Sligo Town contain properties to rent within each of the townland border (daft.ie).

¹⁰ Areas of Co. Leitrim contains properties to rent within the county borders (Daft.ie).

¹¹ Waterford City Centre contains properties to rent in Newtown, Ballyaneen, Waterford City, Belview Port, Ballytruckle, Ballygunner, Carrigeen, and Ballinamona. (daft.ie)

¹² In June 2022, the Minister for Housing increased the discretionary HAP rate outside of Dublin from 20% to 35%. Rates for single people also increased to match rates available for couples.

Market Context

The September 2022 *Locked Out of the Market* report shows another decline in the availability of all properties available in the private rental market and those affordable through HAP. The report comes in the context of a private rental market affected by a documented ongoing contraction in supply, increase in rental prices, and an overall lack of affordability.

The latest Rental Price Report from Daft.ie¹³ found that rent prices increased by 12.6% in the 12 month period between Q2 2021 and Q2 2022; this is the strongest year-on-year increase in market rents since the Daft Report was launched in 2005. The average national monthly rent now sits at €1,618. During the Covid-19 pandemic, we witnessed a 4% drop in rental prices in Dublin as demand for properties fell. Demand has since returned and prices again are on the rise. According to the latest Daft.ie rental report, rents in the capital experienced an annual increase of 12.7%. The largest increase was seen in Co. Leitrim, an area not protected as a rent pressure zone, where rents rose 21.3% year-on-year.

Increases in rents are twinned by an ongoing contraction of supply. Homes available to rent as recorded by the Daft.ie report hit yet another all-time low. On August 1st, there were just 716 homes listed to rent nationwide, just one fifth of the average number of homes available to rent on the same date between 2015 and 2019.

Since the June publication of *Locked Out*, Ireland has witnessed record high numbers in homelessness for two consecutive months. 10,805 people were living in emergency homeless accommodation in the last week of August 2022 according to recent figures from the Department of Housing, Local Government and Heritage.¹⁴ This is a 31.6% year-on-year increase.

Budget 2023 was announced in the week following the data collection of this report. A new Rent Tax Credit was announced for people who pay for private rented accommodation. This tax credit will be €500 a year and will apply to each person paying rent rather than each tenancy. The credit will be available for 2022 until 2025. This credit, however, will not be available to people getting social housing support, such as the Housing Assistance Payment.

Main Findings

Property Availability:

- The number of properties available to rent is dropping. In all, there were 392 properties available to rent at any price within the 16 study areas over the three dates surveyed. This represents a 61.5% drop from the 1,017 properties available in September 2021 and 84.6% less than the 2,543 available in September 2020.
- 61% (239) of these properties were found in Dublin City (Dublin City Centre, Dublin City North and Dublin City South).
- No properties were affordable under a standard HAP rate for any household type.
- 35 properties were affordable under HAP discretionary limits across the four household types. This two less than the 37 available in the previous *Locked Out* publication, 81.7% less than 12 months prior (192) and a drastic 95.2% reduction from the 738 HAP properties 24 months prior in September 2020.

¹³ Irish Rental Report Q2 2022, Daft.ie. Available at: https://ww1.daft.ie/report/ronan-lyons-2022q2-daftrentalprice?d_rd=1

¹⁴ Available at: <https://www.gov.ie/en/collection/80ea8-homelessness-data/>

- 65.7% (23) of the 35 properties affordable under HAP discretionary rates were available in Dublin. In Dublin the discretionary rate allows up to an additional 50% on the standard rate; this is limited to 35% elsewhere in the country.
- In nine of the 16 study areas, there were no properties available to rent in any household category within standard or discretionary HAP limits. These were Athlone, Galway City Suburbs, Galway City Centre, Co. Leitrim, Limerick City suburbs, Limerick City Centre, Sligo Town, Portlaoise, and Waterford City Centre.

John and Mary's Story

John, Mary and their three children were living in private rented accommodation when they were issued with an eviction notice after the landlord passed away and the property was being sold by other family members.

John and Mary's family lived there for three years and were previously in emergency accommodation (BnB) for 9 months. They have been looking for a property for 6 months and have had a total of 8 viewings in that time

John and Mary have been told they have too many children for a three-bed house. They have been approved for HAP but often receive no communication or have been told the property is gone once they mention HAP. They have also been refused due to the mother having no employment references, even though she cares for her youngest child with Down Syndrome.

The family are constantly seeking reassurance as to what will happen if they can't find somewhere and they are nervous that they will become homeless again. Their child with Down Syndrome has never experienced homelessness and they are concerned about the impact this will have on them if they are forced into emergency accommodation. They would find it extremely difficult to adapt to a one-bedroom room in Private Emergency Accommodation. John and Mary are frustrated as they have the savings to secure a property, even without HAP, but haven't even got an opportunity to secure a place.

John and Mary's story demonstrates, how a chronic lack of affordable accommodation within the private rented sector, is impacting people's ability to find a stable and secure home.

Household Types

There were no properties within this study available under the standard HAP rate. Of the 35 properties available to rent across the 16 study areas in at least one of the four household categories of HAP discretionary limits, the following were available:

- **Single Persons and Couples:** 11 properties under the discretionary rate were available for single people and couples. One was available in Kildare and Cork, and the remaining nine were available in the Dublin areas examined.
- **Couple/one parent plus one child:** 13 properties were available within discretionary HAP limits for families with one child. Six of these were available outside of Dublin.
- **Couple/one parent plus two children:** There was a total of 24 properties available to rent for households with two children under discretionary HAP rates; 13 of which overlap with properties available to one-child families.

Analysis of Findings

The September 2022 *Locked Out of the Market* report found 392 properties available to rent at any price within the 16 areas over the three dates surveyed. There were no properties available within a standard HAP rate and 35 were available within discretionary HAP rates. This the lowest number of properties and HAP properties ever recorded by the *Locked Out of the Market* series, and it is the first time that no properties were found in all of the household groups within a standard HAP rate.

The 392 properties available represents a 61.5% decrease from the 1,017 available 12 months prior (September 2021) and an 84.6% decrease in 24 months prior (September 2020). 61% (239) of these were located within the three Dublin areas studied. Sligo Town had the lowest number of properties, with only two available to rent during the course of this study. A drop in the three Dublin areas largely accounted for the reduction in total properties available which halved from 456 in June to 239 in September 2022.

September 2022 is the first *Locked Out* report that did not find any properties affordable under standard HAP rates; all were available under discretionary rates. As seen in many recent *Locked Out* reports, the supply of properties within HAP limits was predominantly available in Dublin; 27 (65.7%) of the total 37 HAP properties were found in the three Dublin areas examined. Dublin has a discretionary HAP rate of 50% compared to only 35% for the rest of the country.

Outside of Dublin, HAP properties available to rent within HAP rates are worryingly low; nine of the 16 areas had no HAP properties available to rent in any household category within standard or discretionary limits. These were Athlone, Galway City Centre, Galway City Suburbs, Co. Leitrim, Limerick City Suburbs, Limerick City Centre, Sligo Town, Portlaoise, and Waterford.

The report also considered properties that would be affordable if this discretionary rate were increased to 50% in areas outside of Dublin. If the discretionary rate was increased to 50% outside of Dublin, an additional nine properties would have been available to low income households.

Single person households received an increased HAP rate to match that available to couples in June 2022. *Locked Out of the Market*, September 2022 found 11 properties affordable under the discretionary HAP rates for both single people and couples. Access to one-bed HAP properties was low outside of Dublin; nine of the 11 were available in the Dublin areas studied. The remaining two were found in Cork City Suburbs and Kildare.

Only 13 properties were available under discretionary limits for households with one child. A further 11 were available for families with two children, under the discretionary HAP rate.

Liam's Story

Liam is a single man staying at in Emergency Homeless Accommodation with the Simon Community:

"I had my own place for 12 years. I was working, paying rent. I'm approved for HAP the last two years. I'm looking in the city, I'm looking everywhere. No properties come close. The best example I could give you is a friend has a one bed and the rent is €1,500. HAP covers about €600 and he pays the rest.

I'm on Disability [Allowance] and that gives me €208 a week. It's €1,300 to €1,600 for a one bed. HAP would cover €600 odd so I couldn't afford that and electricity and food. You're ruled out straight away because of the price. It's not fit for purpose."

Liam's story shows the effects of rising rents and the chronic shortage of affordable properties on a person trying to exit homelessness looking to rent within the private rented sector.

Following a brief insight into the Homeless HAP/Discretionary Top-Ups, presented below are the findings from the Locked Out of the Market three-day snapshot study for the 19th, 20th and 21st of September 2022. Table 1 provides an overall picture of the 16 study areas, showing the total number of properties available to rent in each area as well as the total HAP properties with a comparison to results found in the previous Locked Out report (March 2022).

Table 2 gives a more in-depth breakdown of HAP property availability within each of the 16 areas examined across the four household categories. The individual area tabular findings show the number of new available properties to rent for the four household types over the three days of the study period.

Table 3 provides a breakdown of properties available under current HAP rates and the 35% discretionary rate outside of Dublin due to be implemented by the Minister.

Tables 4-19 provide a more detailed summary of properties available in each of the 16 areas, both in terms of HAP properties and in terms of properties available to rent at any price.

Homeless HAP/Discretionary Rate top-ups

As well as reviewing availability of properties within standard HAP limits, *Locked Out of the Market* September 2022 also examines the impact of additional top-ups available to HAP recipients. These top-ups (referred to in this study as 'Homeless HAP' for Dublin areas, and a 'Discretionary Rate' elsewhere) were introduced in July 2016, in recognition of the difficulty some recipients were having in securing affordable rental accommodation.

The top-ups allow local authorities to authorise an increase in payments in cases where suitable properties are not available within standard HAP rate limits. In Dublin City, the rate is set at up to a maximum of an additional 50% of the standard rate. In this instance, the rate for a single person (€660) is increased to €990. In all local authority areas outside of Dublin City, the discretionary rate was increased from 20% to a maximum of an additional 35% of the standard rate in June 2022 by the Minister for Housing, Local Government and Heritage. The rate for single people also increased to match that available for couples. Prior to these recent changes, the standard rate for a single person in, for example Cork City was €550 that could have been increased to €660 with the maximum discretionary rate. Now, a standard rate for a single person in Cork City sits at €650 with a maximum discretionary rate (35%) of €878.

Athlone Summary:

- There was an average of seven properties to rent in Athlone each day during this study period.
- There were no properties available within HAP rates in Athlone for any of the four household types studied.
- There were no two or three bed properties available in Athlone during this study period.
- Two one-bedroom properties were available during this study, with rents ranging between €1,000 - €1,950
- Rents ranged from €1,338 - €1,800 for two-bedroom properties
- There was only one three-bedroom property available, with a rent of €1,250 per month.

¹⁶ Totals includes properties available with four or more bedrooms that were available at the time of the study, but not necessary for inclusion of the report.

¹⁷ Properties not available from the previous day

Cork City Centre Summary:

- There was an average of 16 properties to rent in Cork City Centre each day over the course of the study period.
- There was one property available within discretionary HAP rates for a family with one child. This same property fell within limits for families with two children.
- No properties were affordable through HAP for single people or couples.
- Monthly rents in Cork City Centre ranged from €1,208 - €4,500 for one-bedroom properties.
- Monthly rents in Cork City Centre ranged from €1,700 - € 2,775 for two-bedroom properties available over the three-day study period.
- Monthly rents in Cork City Centre ranged from €1,693 - €3,419 for three-bedroom properties.
- According to daft.ie, average rents in Cork City rose 11.8% in the last year to €1,670.

Total unique HAP	4			

Cork City Suburbs Summary:

- There was an average of 20 properties available to rent in Cork City Suburbs over the course of the study period.
- Four unique HAP properties were available to rent in Cork City Suburbs. None were available within standard rates.
- One property was available for couples and also singles under the discretionary HAP rate.
- Two properties were available for households with one child.
- A total of three properties were available for households with two children. Two of these fell within the single child household category.
- There were only two one-bedroom rental opportunities available over the three-day study period, with rents ranging from €840-€1,100.
- Rent for two-bedroom properties ranged from €945-€2,500.
- Rent for three-bedroom properties ranged from €1,085-€2,500 in Cork City Suburbs.
- According to daft.ie, average rents in Cork County rose 10.4% in the last year and now sit at €1,296.

Dublin City North

About Simon Communities of Ireland

The Simon Communities support over 24,000 men, women, and children. We have 50 years of experience providing homeless, housing and treatment services to people facing the trauma and stress of homelessness. We are a network of independent Communities based in Cork, Dublin, Dundalk, Galway, the Midlands, the Mid West, the Northwest and the South East, responding to local needs and supported by a National Office in the areas of policy, research, and communications. We share common values and ethos in tackling homelessness and, informed by our grassroots services, we campaign for more effective policies and legislation regionally, nationally and at European level. Whatever the issue, Simon's door is always open for as long as we are needed. For more information, please visit www.simon.ie.

Services include:

- Homelessness prevention, tenancy sustainment and resettlement.
- Street outreach, emergency accommodation and harm reduction.
- Housing with support and Housing First services.
- Homeless specific health and wellbeing services (counselling; addiction treatment and recovery; and mental health supports).
- Personal development, education, training, and employment services.
- Foodbanks, drop-in centres and soup runs.
