Introduction

Locked Out of the Market is a snapshot study undertaken every quarter, over three consecutive days, on Ireland's most used property website and app, Daft.ie.¹ This report tracks the number of properties advertised to rent within the Department of Housing, Local Government and Heritage (DHLGH) Housing Assistance Payment (HAP) limits. Details were gathered from Daft.ie for the following areas: Cork City Centre,² Cork City Suburbs, Dublin City Centre,³ Dublin City North,⁴ Dublin City South,⁵ Galway City Centre,⁶ Galway City Suburbs, Limerick City Centre, Limerick City Suburbs, Portlaoise, Kildare (selected areas),⁷ Athlone, Sligo Town,⁸ Dundalk, Co. Leitrim,⁹ and Waterford City Centre.¹⁰

This is the 41st snapshot study. It is designed to reflect the lived experience of people with access to HAP support trying to find a home to rent in this period. This study examines the availability of properties within standard and discretionary HAP limits in each of the 16 areas. This discretionary rate can be up to an additional 50% of the standard rate in Dublin, and up to an additional 35% of the standard rate elsewhere. The four household categories examined are as follows:

- Single person
- Couple
- Couple/One Parent and One Child
- Couple/One Parent and Two Children

The study counts one-bedroom units for single people and couples; two-bedroom units for couples/one parent and one child; and two/three bedrooms or more for couples/one parent with two children. It should be noted that this represents a change in methodology from earlier iterations of this study, whereby one-bedroom units had been

¹ Daft.ie is a property website that advertises the asking prices for properties available for sale and for rent. <http://www.daft.ie/about/>

² Each city centre in daft is known as a "general area" and has a number of specific areas associated with it. Ads are placed in these specific areas. Cork City Centre contains properties to rent in Cork City Centre, Western Road, and The Lough (daft.ie).

³ For this Report, Dublin City Centre was defined as Dublin 1 and Dublin 2.

⁴ For this Report, Dublin City North was defined as Dublin 3, 5, 7, 9, 11.

⁵ For this Report, Dublin City South was defined as 4, 6, 6w, 8, 10, 12, 14 and 16.

⁶ Galway City Centre contains properties to rent in Galway City Centre, Nun's Island, Bohermore and Woodquay (daft.ie).

⁷ Areas of Kildare include Ballitore, Ballymore Eustace, Celbridge, Clane, Johnstown bridge, Kilcock, Kildare, Kill, Leixlip, Maynooth, Naas, Newbridge, Prosperous, Rathangan, Robertstown, Sallins, Straffan, and The Curragh.

⁸ Areas of Athlone, Portlaoise, Dundalk and Sligo Town contain properties to rent within each of the townland border (daft.ie).

⁹ Areas of Co. Leitrim contains properties to rent within the county borders (Daft.ie).

¹⁰ Waterford City Centre contains properties to rent in Newtown, Ballyaneen, Waterford City, Belview Port, Ballytruckle, Ballygunner, Carrigeen, and Ballinamona. (daft.ie).

counted as viable options for the couples/one parent and one children category. This change came into effect in the July 2020 publication.

Market Context

The March 2026 *Locked Out of the Market* report shows a decrease in the number of properties available to rent through HAP since the December 2025 report, though the number of properties available to rent at any price has increased over the same period. This report comes in the context of a private rental sector characterised by unaffordability, volatility, and an overall lack of supply.

According to the Residential Tenancy Board's (RTB) latest [Rent Index Report](#) for Q3 2025, the national standardised average rent in new tenancies is now €1,776, representing a 5.4% year-on-year increase. In Dublin, the standardised average rent for new tenancies is €2,307 per month, with a year-on-year increase of 4.4%. Outside of Dublin, the average rent for new tenancies is €1,433, with a higher year-on-year increase of 7.5%.¹¹ It is evident that the lack of a supply of rental properties is leading to significant affordability challenges, especially outside of Dublin. This is reflected in the findings of March 2026's *Locked Out of the Market* study, as very few HAP properties were found outside of the capital city.

The standardised national average rent for existing tenancies was €1,494, representing a 4.6% year-on-year increase. In Dublin, the average rent for existing tenancies was €1,944, representing a slightly smaller 4.1% year-on-year increase. Outside Dublin, the average rent for existing tenancies was €1,123 representing a 5.2% year-on-year increase. Rental inflation for existing tenancies remains lower across the country than for new tenancies, reflecting the impact of rent pressure zone legislation.

Nationally, rents for new tenancies are 18.9% higher than for existing tenancies. The Simon Communities of Ireland continue to highlight this concerning trend. The large gap between the cost of new and existing tenancies is one that many households cannot afford to fill. This is particularly concerning given the large numbers of households receiving eviction notices. In 2024, 16,546 households received notices, and a further 20,033 more households received notice in 2025.¹² If these households are fortunate enough to find alternative housing in the private rental sector, they are likely to face significantly higher monthly rents.

For households reliant on HAP, these challenges are especially pronounced. As seen in *Figure 1*, which traces the development and key changes to the scheme over time, HAP rent limits have not kept pace with rapidly rising market rents. The prospect of finding a

¹¹ [RTB/ESRI Rent Index - Residential Tenancies Board](#)

¹² [Notices of termination - Residential Tenancies Board](#)

rental property within HAP limits remains extremely difficult, especially outside Dublin where supply is even more limited, and HAP limits are set much lower. HAP households are increasingly being forced to pay additional ‘top-up’ payments directly to their landlord due to a shortfall between HAP and the actual rent. This is on top of the rent they are paying to their local authority. The RTB’s 2023 Rental Survey report¹³ highlighted how the proportion of tenants reliant on rental assistance having to make a top-up payment to their landlord has increased from 66% in 2019/2020 to 88% in 2022/2023. The average top-up payment increased from €255 to €284 over the same period. The Office of the Ombudsman’s *Investigation of the HAP Scheme* highlights the inefficiencies and inequities of the current scheme, making a number of welcome recommendations – including raising the maximum rent caps to reflect the current market.¹⁴ The Department of Housing, Local Government, and Heritage has also commenced a review of HAP rent limits.¹⁵

Ireland continues to reach record levels of homelessness. According to the latest figures published by the Department of Housing, Local Government and Heritage, as of February 2026 there were 17,308 people living in emergency accommodation across the country, including 5,457 children. This represents a 12.6% and 17.3% year-on-year increase, respectively.

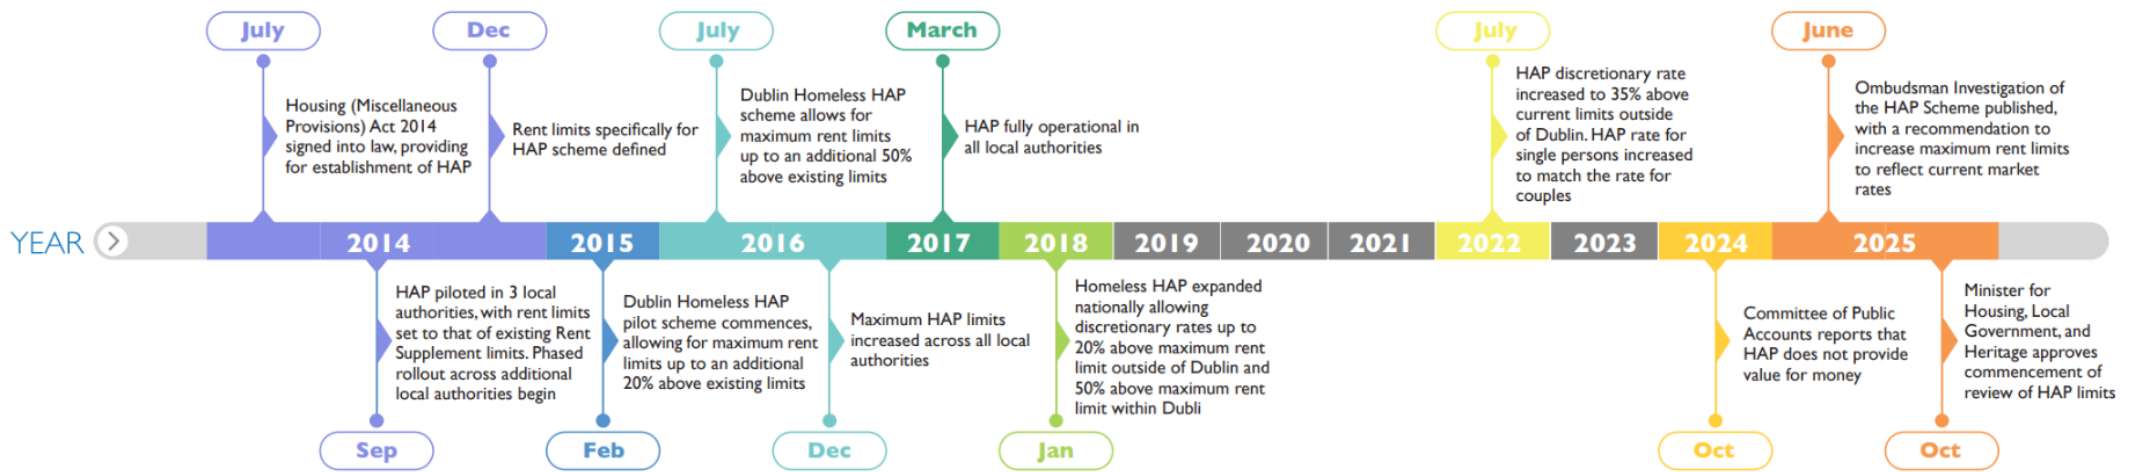

Figure 1. HAP Timeline

Main Findings

- The report found just **14 properties available within discretionary HAP limits** across the 16 study areas.
 - This represents just **1% of the total properties** examined in the study.
 - This is lower than 2024 and 2025's average of 3%. In 2023, an average of 4% of properties were available through HAP. In 2022, the average was 8% and in 2021 the average was 28%.
- **Just two properties were available through standard HAP limits.**
- **11 (79%) of the 14 properties available through HAP were in Dublin.** In Dublin, the discretionary rate allows up to an additional 50% on the standard rate; this is limited to 35% elsewhere in the country.
- **In 10 out of the 16 study areas there were no properties available to rent through HAP** in any household category. These include Athlone, Cork City Suburbs, Galway City Suburbs, Kildare, Galway City Centre, Co. Leitrim, Limerick City Suburbs, Limerick City Centre, Portlaoise, and Waterford City Centre.

Long-Term Comparison

Figure 2 below shows a long-term comparison of the findings of the *Locked Out of the Market* reports from the start of 2020. The availability of rental properties generally, as well as HAP properties, increased significantly during the COVID-19 restrictions. Following the lifting of restrictions, a clear decline can be observed. Although the availability of properties generally has increased since mid-2022, this has not coincided with similar increase in the availability of HAP properties. This is a concerning trend and highlights how new supply remains largely out of reach for those on low incomes who are reliant on HAP.

Locked Out of the Market 2020-2026

Chart: Simon Communities of Ireland • Source: Simon Communities of Ireland: Locked Out of the Market Reports • Created with Datawrapper

Figure 2: Locked Out of the Market Long-Term Comparison

The table below compares the findings of the last four *Locked Out of the Market* reports. It is extremely concerning that five of 16 study areas had no properties available within HAP limits in all four reports, including Athlone, Co. Leitrim, Limerick City Centre, Portlaoise, and Waterford City Centre. As reiterated in every *Locked Out of the Market* report, the lack of HAP properties available outside of the capital where discretionary HAP is limited to 35% is a serious concern.

	Total HAP Properties June 2025	Total HAP Properties September 2025	Total HAP Properties December 2025	Total HAP Properties March 2026

Table 1. Locked Out of the Market Findings June 2025 – March 2026

Household Types

The study found a total of 14 properties to rent within HAP limits across the 16 study areas in at least one of the four household categories. 12 of these properties were available under discretionary HAP limits, and two were available within standard HAP limits.

- Single Person/Couple:** There were two properties available for single person/couple households within standard HAP limits, located in Dublin City North (1 property) and Sligo Town (1 property). There were 6 properties suitable for single person/couple households within discretionary HAP limits, located in Cork City Centre (1 property), Dublin City North (3 properties), and Dublin City South (2 properties).
- Couple/One Parent Plus One Child:** There were no properties available to couple/one parent households with one child through a standard HAP rate. There were 4 properties available through discretionary HAP rates. These were located in Dublin City North (1 property), Dublin City South (1 property), Dublin City Centre (1 property), and Dundalk (1 property).
- Couple/One Parent Plus Two Children:** There were no properties available to couple/one parent households with two children through a standard HAP rate. There were three unique properties available through discretionary HAP rates, and an additional four that overlapped with properties available to families with

one child. The three unique properties were in Dublin City North (1 property) and Dublin City South (1 property), and Dublin City Centre (1 property).

Analysis of Findings

The March 2026 *Locked Out of the Market* report found 1,070 properties available to rent at any price within the 16 areas over the three dates surveyed. This is a 15% increase from the 929 properties available in the December 2025 report. However, it is a 4% reduction from the 1,119 properties available in March 2025 report.

65% (693) of the properties available to rent at any price were in the three Dublin areas studied. Portlaoise and Co. Leitrim had the lowest number of properties available to rent, with just one and seven properties available in each area, respectively, across the three days. When compared with the December 2025 *Locked Out of the Market* Report, four of the 16 study areas saw a reduction in the number of properties available to rent. These include Dublin City Centre (-6 properties), Dundalk (-2 properties), Galway City Centre (-6 properties), and Co. Leitrim (-7 properties). 12 of the 16 study areas saw an increase in the number of properties available to rent. These included Athlone (+10 properties), Cork City Centre (+11 properties), Cork City Suburbs (+20 properties), Dublin City North (+4 properties), Dublin City South (+27 properties), Galway City Suburbs (+28 properties), Kildare (+12 properties), Limerick City Suburbs (+8 properties), Limerick City Centre (+15 properties), Sligo Town (+5 properties), Portlaoise (+1 property) and Waterford City Centre (+21 properties).

The March 2026 *Locked Out of the Market* report found 14 properties available to rent within any HAP limit. This is a staggering 55% decrease (-17 properties) from the number of properties available in the December 2025 report. Just 1% of all properties available to rent at the time of data collection were available within HAP limits. Eight of the 16 study areas had no properties available within HAP limits in either the December 2025 or March 2026 reports. These include Athlone, Galway City Suburbs, Galway City Centre, Co. Leitrim, Limerick City Suburbs, Limerick City Centre, Portlaoise, and Waterford City Centre. Six of the 16 study areas saw a reduction in the number of HAP properties available since the December 2025 report. These include Cork City Suburbs (-1 property), Dublin City North (-7 properties), Dublin City South (-7 properties), Dublin City Centre (-2 properties), Dundalk (-1 property), and Kildare (-1 property).

As seen in previous *Locked Out of the Market* reports, the supply of properties within HAP limits was predominantly found in Dublin; 11 (79%) of the 14 HAP properties were found across the three Dublin study areas. Just three of the 13 study areas outside of Dublin had properties available to rent within HAP limits. These included Cork City Centre (1 property), Dundalk (1 property) and Sligo Town (1 property). No properties were available to rent within HAP limits in 10 of the 16 study areas. These include Athlone, Cork City

Suburbs, Galway City Suburbs, Kildare, Galway City Centre, Co. Leitrim, Limerick City Suburbs, Limerick City Centre, Portlaoise, and Waterford City Centre.

Single person households received an increased HAP rate to match that available for couples in July 2022. The *Locked Out of the Market* March 2026 report found two properties suitable for single person/couple households within standard HAP limits, located in Dublin City North (1 property) and Sligo Town (1 property). There were six properties suitable for single person/couple households within discretionary HAP limits, located in Cork City Centre (1 property), Dublin City North (3 properties), and Dublin City South (2 properties).

Up until the March 2024 *Locked Out of the Market* report, studio apartments have not been included as a suitable option for any of the four household categories examined. This is due to the inherent inadequacy of studio apartments as long-term housing solutions, given the lack of space and privacy they provide. However, we note that studio apartments may be suitable for some single person households, particularly given the severity of the housing crisis, which has left households with extremely limited housing options. For the purpose of this report, studio apartments are not included in the overall figure for HAP properties. However, we note there were 14 studio apartments available within HAP limits during the study period. Just one of these properties was available within standard HAP limits. 12 of these studio apartments were located in Dublin, one in Dundalk, and one in Kildare.

There were no properties available to couple/one parent households with one child through a standard HAP rate. There were four properties available through discretionary HAP rates. Three of these properties were located in Dublin, and one in Dundalk.

There were no properties available to couple/one parent households with two children through a standard HAP rate. There were 3 unique properties available through discretionary HAP rates, and an additional 4 properties that overlapped with properties available to families with one child. The three unique properties were all located in Dublin.

Homeless HAP/Discretionary Top Ups

As well as reviewing availability of properties within standard HAP limits, *Locked Out of the Market* March 2026 also examines the impact of additional top-ups available to HAP recipients. These top-ups (referred to in this study as 'Homeless HAP' for Dublin areas, and a 'Discretionary Rate' elsewhere) were introduced in July 2016, in recognition of the difficulty some recipients were having in securing affordable rental accommodation.

The top-ups allow local authorities to authorise an increase in payments in cases where suitable properties are not available within standard HAP rate limits. In Dublin City, the rate is set at up to a maximum of an additional 50% of the standard rate. In this instance,

the rate for a couple (€900) is increased to €1,350. In all local authority areas outside of Dublin City, the discretionary rate was increased from 20% to 35% of the standard rate in June 2022. The rate for single people was also increased to match that available for couples. Prior to these recent changes, the standard rate for a single person in for example Cork City was €550, which could have been increased to €660 with the maximum discretionary rate. Now, a standard rate for a single person in Cork City sits at €650 with a maximum discretionary rate (35%) of €878.

The most recent [HAP Performance Indicator](#) report from the Department of Housing, Local Government and Heritage shows the use and level of HAP discretion, from 2018 to 2024. These figures are outlined in the tables below. The use of discretion shows what percentage of households are receiving additional discretion, and the level of discretion shows the average rate of discretion received by households. Since 2018, both the use and the level of discretion have been on the rise. This is unsurprising given the high rates of rental inflation across the country.

	2018	2019	2020	2021	2022	2023	2024
Use of Discretion	33.1%	42.7%	50.4%	57.0%	61.8%	65.7%	69.0%
Level of Discretion	21.8%	22.5%	23.2%	24.2%	25.5%	27.5%	29.2%

Table 5: Availability of HAP Properties by Region

Summary of Findings for Each Location

Athlone

An average of 28 properties were available to rent in Athlone each day during the study period. Over the course of the three days, there were no properties available within HAP limits for any of the household types studied. Monthly rents ranged from €700 - €1,600 for one-bedrooms, €1,200 - €2,000 for two bedrooms, and €1,750 - €2,600 for three bedrooms.

Number of HAP properties available to rent each day							
		Day 1		Day 2 (new properties)		Day 3 (new properties)
